KAWASAKI ROBOT FS 60L
Model : ROBOT FS 60L
Manufacturer : KAWASAKI
N° 1 ROBOT KAWASAKI MOD. FS 60L

LIFT-MASTER 3000 X 1500
Model : L-M
Manufacturer : TRUMPF
Automatic loading-unloading system Trumf mod. Lift-Master - 3000 * 1500 Working area: axes x 3000 - axes y 1500
<p>The entry-level solution for automation technology is the Lift-Master - it automates loading and unloading operations. The sheets are transported from the raw material stack to the pallet changer on the machine by means of suction cups. An unloading rake transports finished workpieces and scrap skeletons from the machine to the finished parts stack. The Lift-Master naturally enables unmanned production over several hours - e.g. in a second shift.</p> <p>Prompt delivery if not sold</p> <p>It is possible to check the machine in our were house</p>

LOAD-MASTER 3000 X 1500

Model : LOAD MASTER

Manufacturer : TRUMPF

LOADING SYSTEM TRUMPF TYPE LOAD-MASTER - 3000 * 1500 WORKING AREA: AXES X 3000 - AXES Y 1500

The entry-level solution for technology is the Load-Master - it loading operations. The sheets are transported from the raw material stock to the pallet changer on the machine by means of suction cups.

Prompt delivery if not sold
